July 13, 1995

Dear Mr. Weisberg-

I am a twenty-year-old college student with a passionate interest in the assassination of President Kennedy. Knowing that you have been called "the dean of assassination researchers," I decided to write you for advice.

I find your writing very professional and well-informed. I just started Never Again! and have also read Whitewash: The Report on the Warren Report. Unfortunately, I have been unable to locate any of your other works except for Whitewash IV. I have searched every used bookstore in town, with no success. Unfortunately for me, I wasn't even born until Whitewash IV was printed.

However, I noticed in Whitewash IV that your books were at one time available by mail, directly from you. I wonder if I may obtain a price list of these books, if you still have any copies available for purchase. I am particularly interested in Photographic Whitewash and Post Mortem, and Case for Conspiracy, although I noticed in Whitewash IV that it was out of print. Could you write me and let me know if I can purchase these books from you?

Also, I know of the hundreds of thousands of documents you obtained through the Freedom of Information Act. Short of traveling to Washington D.C., are these documents available to the public anywhere else? I was wondering

if you might also be able to offer me some research advice. As I stated earlier, I have a very keen interest in the assassination. I have read many books, and I obtained your address from the bibliography of Harrison Livingstone's Killing the Truth. However, as an engineering student who is away from home nine months out of the year, (I attend school in Los Angeles), I am not always afforded the time I would like for reading and researching. Is there any way I can maximize use of my available time? How did you sift through those hundreds of thousands of documents? Any advice would be appreciated.

Thank you for your time, Mr. Weisberg. I feel my generation of Americans owes you a great debt of gratitude for your back-breaking and exhaustive efforts to finally expose the truth in this long-lasting debate. I greatly appreciate and thank you for this, sir. Please let me know if any of your older works are still available. Thank you.

Very Sincerely,
Mike Lopez

P.S. Just because I've read Livingstone doesn't mean I particularly admire his work. I tend to find it very sensationalist, fragmented, and just plain amateurish. I imagine you aren't impressed with what he wrote about you in Killing the Truth.
